MHP SE

End of operations at the Snyatynska poultry farm

MHP SE (LSE: MHPC), the parent company of a leading international agro-industrial group with headquarters in Ukraine, today announces its decision to cease production of goose meat and foie gras at its Snyatynska poultry farm by the beginning of September 2019. The assets of the farm, which represent less than 0.5% of the assets of the MHP Group, are currently being offered for sale. MHP believes that the production of foie gras is not consistent with the Company's strategy and policy of being a global leader in E&S and Animal Welfare.
