## **Notes to Editors:**

### **About MHP**

MHP was admitted to the Official List of the London Stock Exchange in May 2008. It is the leading producer of poultry products in Ukraine, with a 2008 market share for industrially produced chicken meat of approximately 39%, according to the State Committee on Statistics of Ukraine. It's "Nasha Ryaba" brand is the market leader, whilst MHP also has several other national and regional brands for processed meat products.

MHP is fully vertically integrated owning and operating each of the key stages of chicken production processes, from feed grains and fodder production to egg hatching and grow out to processing, marketing, distribution and sales (including through MHP's franchise outlets). Vertical integration reduces MHP's dependence on suppliers and its exposure to increases in raw material prices. In addition to cost efficiency, vertical integration also allows MHP to maintain strict bio-security and to control the quality of its inputs and the resulting quality and consistency of its products through to the point of sale.

MHP also has an important and expanding grain operation, producing and selling sunflower oil as a by-product of its fodder production. MHP also produces and sells beef, sausages, cooked meats convenience food products, goose meat, foie gras and fruit.
