Directors' Remuneration Policy

This part of the Directors' Remuneration report sets out the Directors' Remuneration Policy (the "Policy"), which, subject to shareholder approval at the Extraordinary General Meeting, shall take effect from the close of that meeting.

The Policy is determined by the Company's Nominations and Remuneration Committee (the "Committee").

Whenever companies want to introduce a new remuneration policy or make changes to an existing policy they will need to put the remuneration policy to shareholders for approval; and

The Company will put remuneration policy to shareholders for approval at least every three years.

The Remuneration Policy for Directors has been designed with the following aims:

- to attract, retain and motivate Executive and Non-Executive Directors to deliver the Company's short and long-term business strategy;
- to reward and support high performance by linking reward to the assessment of company's and individual objectives;
- to provide a clear and transparent remuneration framework;
- to encourage fairness and recognising individual contribution whilst being aligned to the strategy of the Company;
- to have a competitive mix of fixed remuneration and short-term and long-term incentives, with an appropriate proportion of the package determined by stretching targets linked to the Company's performance;
- to align the interests of the Executive Directors, senior management and employees with those of shareholders and appropriate alignment with strategic goals; and
- to ensure that remuneration and incentives adhere to the principles of good corporate governance, support good risk management practice and promote sustainable Company's performance.

Recovery provisions

The Committee has discretion to cancel or reduce any annual bonus or/and long-term incentive before the payment date.

These recovery provisions may be applied in the event of material misstatement of the Company's financial statements, serious reputational damage to the Company, material corporate failure, gross misconduct on the part of the Executive Director, or if an annual bonus or and long-term incentive award has paid out at a higher level than would have been the case but for a material misstatement or serious reputational damage.

Explanation of Performance Metrics

Performance measures for the annual bonus are selected to reflect the Company's strategy and determined on Objective and Key Results (OKRs). OKRs are set each year by the Committee taking into account a number of different factors (including ESG principles).

The Committee may vary or substitute any key results if an event occurs which causes it to determine that it would be appropriate to do so (including to take account of acquisitions or divestments, a change in strategy or a change in prevailing market conditions), provided that any such variation or substitution is fair and reasonable and (in the option of the Committee) and the change would not make the measure less demanding than the original measure would have been but for the event in question. If the Committee were to make such a variation, an explanation would be given in the next Directors' Remuneration Report.

Recruitment remuneration policy

Should it become necessary to recruit a new Executive Director, the Committee would ordinarily negotiate the remuneration package of the new director from the same elements described in the policy table as are applied to existing directors.

The Committee's overarching principle for recruitment remuneration is to pay due to market data or above to attract an executive director of the calibre required to shape and deliver the Group's business strategy. In determining each element of pay and the package as a whole upon recruitment, the Committee will take into account all relevant factors including, but not limited to, the skills and experience of the individual, the market rate for an individual of that experience, as well as the importance of securing the best person for the role.

The Committee may make payments or awards in respect of hiring an employee to 'buyout' remuneration arrangements forfeited in connection with leaving a previous employer.

Where a position is filled internally, any ongoing remuneration obligations or outstanding variable pay elements shall be allowed to continue in accordance with their terms.
